

## Antivirus Software

AVG

**Cost:** Free, or Paid  
**How:** free.avg.com  
**Easy:** Feature-rich  
**Features:** Plenty  
**Effective:** Pretty Good  
**Downsides:** Reminds you to buy the full version

## Anti-malware Software

MalwareBytes

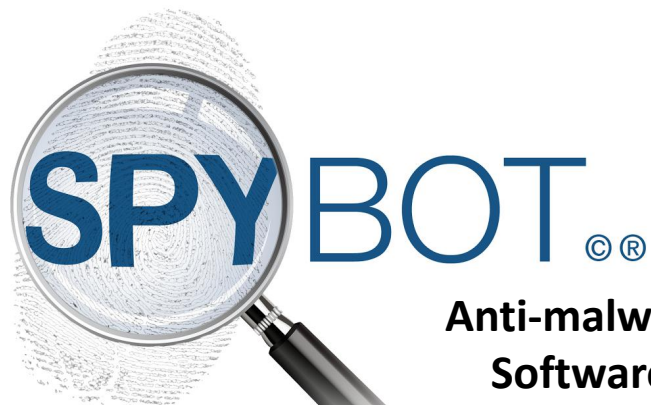

**Cost:** Free, or Paid  
**How:** malwarebytes.org/downloads/  
**Easy:** Straightforward  
**Features:** Moderate  
**Effective:** Pretty Good  
**Downsides:** Reminds you to buy the full version

## Content Filtering ISP

Webshield

**Cost:** ADSL&NBN from \$49/m  
3G mobile from \$19/m  
**How:** webshield.net.au  
**Easy:** We do it all. Filtering is done before the connection reaches you location  
**Features:**

## Anti-malware Software

SpyBot Search & destroy

**Cost:** Free, or Paid  
**How:** safer-networking.org/dl/  
**Easy:** Not particularly  
**Features:** Excellent  
**Effective:** Not only cleans out the trash, it "immunises" you from getting it back  
**Downsides:** Not pretty or particularly friendly. Doesn't nag to pay.

## Software Content Filter

Netnanny

**Cost:** \$31.99USD/devices/year or \$59.99USD/5devices/year  
**How:** netnanny.com  
**Easy:** Straightforward  
**Features:** Plenty  
**Effective:** Well respected  
**Downsides:** Potentially can be switched off / bypassed

## Software Content Filter

SafeEyes

**Cost:** \$49.95USD/3devices/year  
**How:** internetsafety.com  
**Easy:** Straightforward  
**Features:** Plenty  
**Effective:** Well respected  
**Downsides:** Potentially can be switched off / bypassed

safe eyes

## Blocks known virus & malware sites

Webshield subscribes to an international organisation that updates lists of detected virus/malware sites

## Spam Filter

All webshield email accounts are filtered for viruses, spam, scareware, etc.

## Filter content

Industrial grade servers filter your entire connection. You can consult with us to change categories of sites, specific sites, or time frames for different filtering levels.

Webshield: 1300 309 121  
Or visit: webshield.net.au

## Monitor

Though you need not be involved in the settings (all filtering is done before the connection reaches your location) we can offer filtering reports if you need to monitor.

## Antivirus Software

### Windows Defender

**Cost:** Free  
**How:** Secretly built into most versions of windows. You just need to switch it on  
**Easy:** Simple  
**Features:** Few  
**Effective:** Microsoft made windows, why not protect their own  
**Downsides:** Mainly focused on Viruses

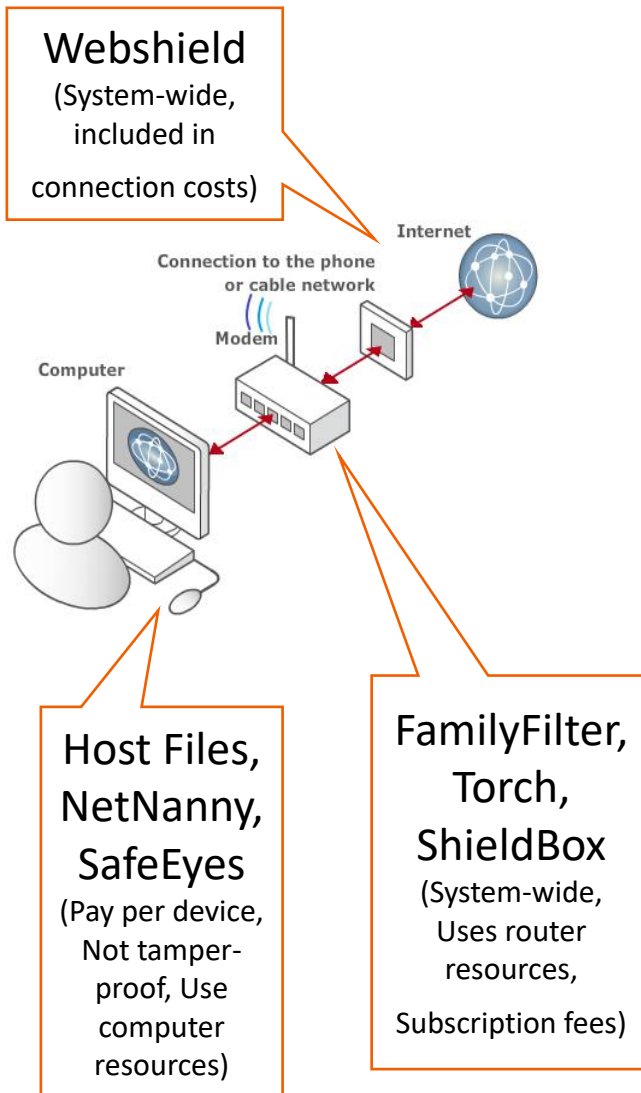

### Antivirus Software Avast

**Cost:** Free, or Paid  
**How:** avast.com  
**Easy:** Straightforward  
**Features:** Moderate  
**Effective:** Well respected for reliability  
**Downsides:** Reminds you to buy the full version
